

*Last year I hired Kasia twice as an interpreter and two or three more times for written translations - all certified and from English to Polish - and I highly recommend her for those kind of services.*

*Kasia is an expert on what she does. She is the kind of professional that performs more than just simply a job. She understands the needs of her customers and manage to deliver a flawless tailored service - and better yet, with more than fair price and excellent timing! Some might say that this is just about doing the job one is hired for, but the way she does it makes all the difference!!*
